About

About Us

20 Years of Experience Start to Success, Together

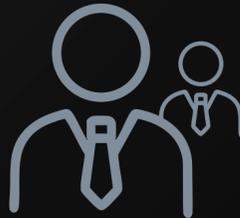

With over 20 years of expertise, Taurian™ has established itself as a leading Indian manufacturer of crushing and screening equipment for aggregates, mining, and mineral processing. The name Taurian™ stands for excellence and reliability globally.

Founded by industry experts, Taurian™ has evolved from a family business to India's only public limited company in its field. Focused on long-term value and quick ROI, Taurian™ has strategic partners with top U.S. and European firms to deliver superior products that meet global industry standards.

Whether you're an experienced veteran or new to the industry, Taurian™ offers extensive support to the global aggregate market through its leading brands, including Taurian MPS™, Terratrak™, Cyclowash™, and Stackmax™.

VISION AND MISSION

Our Vision

Our vision is to be the industry leader in providing innovative, high-quality crushing and screening solutions, backed by unparalleled customer service and support.

Our Mission

Our Mission is to deliver world-class crushing and screening, washing equipment with cutting edge features, ensuring speedy deliveries and cost-effective solutions. Backed by an exceptional customer service team and rapid aftermarket support, with the latest advancements in our products. Quality sets us apart; all crushers from our Roorkee factory are CE certified. Partner with us for all your crushing and screening needs up to 1200TPH.

Leadership

Mr. Sumit Bajla | Founder

Mr. Yashvardhan Bajla

(MD)

Mr. Yashvardhan, Managing Director of Technical Applications, oversees export sales and market development.

He holds a degree in Industrial Engineering from Purdue University, USA.

Leveraging his international experience and network, he effectively cultivates the Company's export market and optimizes associated processes.

Mr. Atul Hirawat

(Director)

With a rich background in manufacturing and heavy engineering, he graduated from Mumbai University with a degree in Commerce.

As the head of project execution onsite, he oversees the entire project lifecycle.

In addition to installation, he manages aftermarket sales and services, ensuring comprehensive support throughout the product's life cycle.

Mr. Vinod Modi

(CFO)

Mr. Vinod Modi, CFO of Taurian MPS Private Limited, holds a Science Graduate degree and possesses extensive technical and commercial expertise across various sectors.

He began his career managing M/s Chota Nagpur Minerals in Ranchi, Jharkhand, a renowned mineral-rich region in India. His tenure there provided him with deep insights into minerals, enhancing his knowledge base.

With thirty years of experience, he has established himself as a respected authority in the field.

Mr. Anand Mohan

(Director – Global Sales)

Mr. Anand Mohan, Director – Global Sales of Taurian MPS Limited, holds a Mechanical Engineer with specialized expertise in export-import operations. He brings hands-on industry experience in the crushing, screening, and washing plant segment, with strong exposure to both domestic and international markets.

Engaged at a strategic level with top-tier global and Indian manufacturers - Voltas, Metso Minerals, Powerscreen and Propel Industries—gaining advanced insight into product positioning, application engineering, and driving value-focused customer solutions.

Mr. Shiju Pappachan

(GM – Operations)

Reporting directly to the MD, he is a thorough professional with over 23 years of experience in manufacturing heavy industrial equipment.

Holding a bachelor's degree in Mechanical Engineering, he demonstrates strong leadership and management skills.

He effectively oversees complete production and leads the entire operations team.

Ms. Priyanka Ghosh

(Marketing Head)

A marketing professional with over 13 years of experience in driving brand growth and delivering impactful campaigns across diverse industries.

She has successfully led projects for some of the most respected organizations, including L&T, Viacom18, HUL, Sandvik, etc.

From conceptualizing large-scale brand activations to executing end-to-end digital and offline campaigns, Priyanka has consistently demonstrated the ability to enhance brand visibility, strengthen consumer engagement, and align marketing initiatives with business objectives.

Partners

United by Purpose, Driven by Results.

We are proud to partner with leading mining companies, infrastructure developers, and aggregate producers who trust us for reliable, high-performance equipment and end-to-end plant solutions.

From small crushing contractors to large industrial mineral operations, we serve a diverse client base across:

Mining & Mineral Ores

- Aggregates and manufactured sand production
- Infrastructure, road, and dam construction projects
- Recycling and waste management operations

Industry Overview

A Strategic Opportunity for Taurian MPS (2025 - 2034)

With a projected CAGR of over 5.2%, the market is expected to surpass USD 130 billion by 2035, up from approximately USD 83.7 billion in 2024.

Drivers: Infrastructure, mineral demand, automation, electrification

Major Growth Catalysts

- Rising demand for mining: Increased demand for minerals, metals, and coal drives growth in mining machinery market.
- Economic growth in India and China: Strong economic growth in these countries contributes to market expansion.
- Abundance of mineral reserves: Plenty of mineral resources coupled with increased mining activities spur market growth.
- Infrastructure expenditure: Growing capital investment in infrastructure and construction supports market growth.
- Technological advancements: Innovations like battery-driven machinery, automation, and telematics drive market expansion.

Taurian MPS

is ready to power the next decade of global mining.

01 Boom in Crushing & Screening

Rising global demand for aggregates, iron ore, bauxite, and coal drives need for high-capacity crushing equipment.

- Our core area

02 Electrification & Hybrid Tech

16.5% CAGR in electric/hybrid equipment

- We are already leading with dual-power and hybrid-ready machines.

03 Underground Mining Growth

USD 21.3B market by 2035

- Our compact systems are ideal for confined mining spaces.

04 Automation & Smart Control

- Taurian MPS Nexus platform enables remote monitoring and predictive maintenance.

05 Global Market Expansion

Asia-Pacific, Africa, Russia, LATAM growth

- We are ready to scale with exports, partners, and regional networks.

06 Custom Plant Solutions

Engineered to fit

- We customize plants for diverse minerals, mobile setups, and large-scale installations.

Technology Partnerships

We are actively seeking technology collaborators and R&D partners who share our vision of engineering innovation and sustainable growth in the minerals processing and infrastructure sectors.

We welcome partnerships with startups, established OEMs, tech developers, and research institutions focused on new age technology.

What do we offer?

- Open Collaboration with Technology Leaders
- Joint Process Innovation
- Pilot-to-Scale Manufacturing Support
- Shared Value & Long-Term Partnership
- Secure & Controlled Manufacturing Environment

**Let's be the partners
who think ahead of time.**

COLLABORATION

White-Label Manufacturing

We offer strategic third-party manufacturing solutions for OEMs, global brands, and technology developers seeking a reliable, scalable, and cost-effective production partner. Our 1,10,000 sq. ft. manufacturing facility in Uttarakhand is equipped with advanced CNC machines, robotic welding stations, plasma cutting, and precision fabrication capabilities—making it ideal for high-quality production of crushing, screening, washing, and material handling equipment.

We support white-label, co-branded, or fully outsourced manufacturing models, offering flexibility without compromising quality.

What do we offer?

- Contract Manufacturing for Partner Brands
- Brand-Neutral & Confidential Operations
- Scalable Production Capacity
- Consistent Quality & Compliance Assurance
- Cost-Efficient, Reliable Production

COLLABORATION

International Dealer Partnerships

We are actively expanding our global footprint and inviting strategic dealer partnerships with organizations that have the ambition, network, and capability to represent a trusted brand in crushing, screening, washing, and material handling equipment.

As an authorized international dealer, you'll be part of a performance-driven ecosystem built on engineering excellence, responsive service, and long-term growth. Together, we can bring world-class mineral processing solutions to high-potential markets worldwide.

What do we offer?

- Direct Manufacturer Partnership
- High-Quality, Scalable Product Supply.
- Territory-Based Dealership Opportunities
- Competitive Pricing & Attractive Margins
- Marketing & Sales Enablement
- Supply Chain & After-Sales Support

Global Service Network

Supporting Every Operation, Wherever You Are

Turnkey Project Execution

End-to-end plant design, engineering, installation, and commissioning

After-Sales Support

On-site service teams, annual maintenance contracts, and emergency breakdown support

Spare Parts Management

Fast availability of critical spares through a well-stocked inventory network

Operator & Maintenance Training

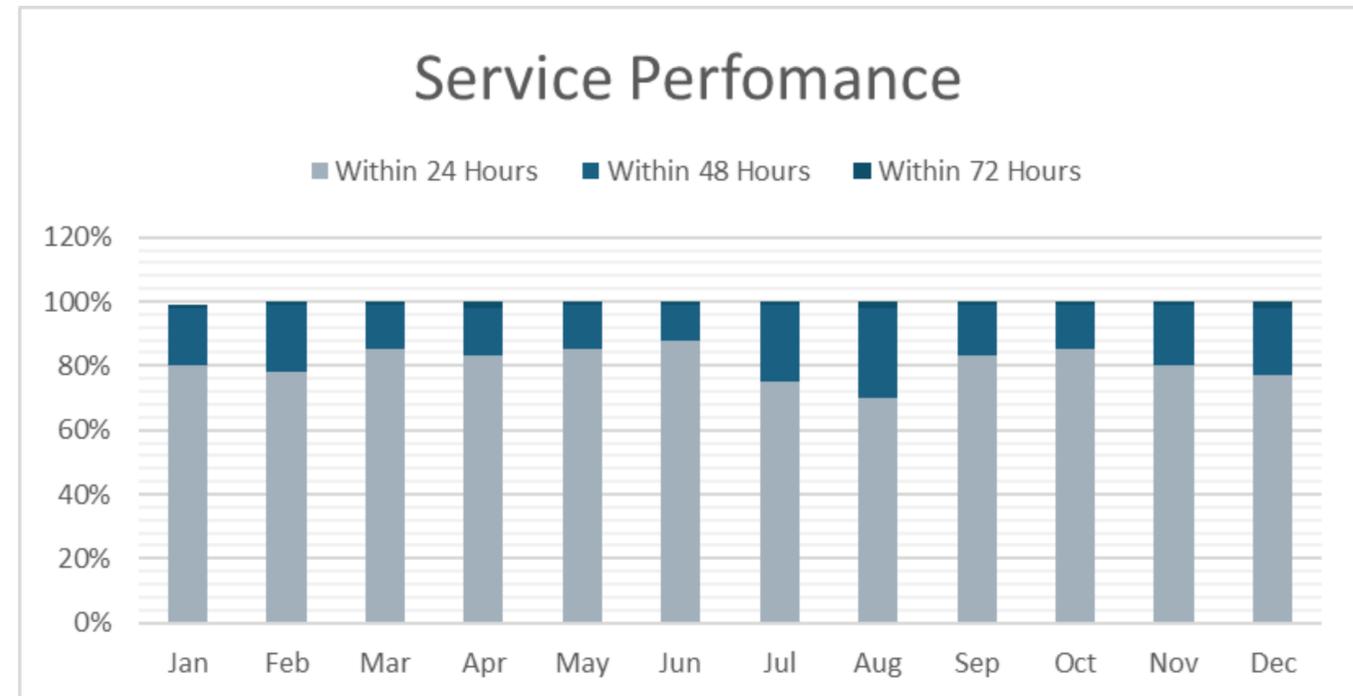

Hands-on training programs to upskill plant operators and maintenance teams

Process Optimization & Upgrades

Performance audits, process improvement, and retrofitting of existing equipment

Remote Monitoring (Taurian Nexus)

Real-time diagnostics, predictive maintenance, and digital reporting for connected machines

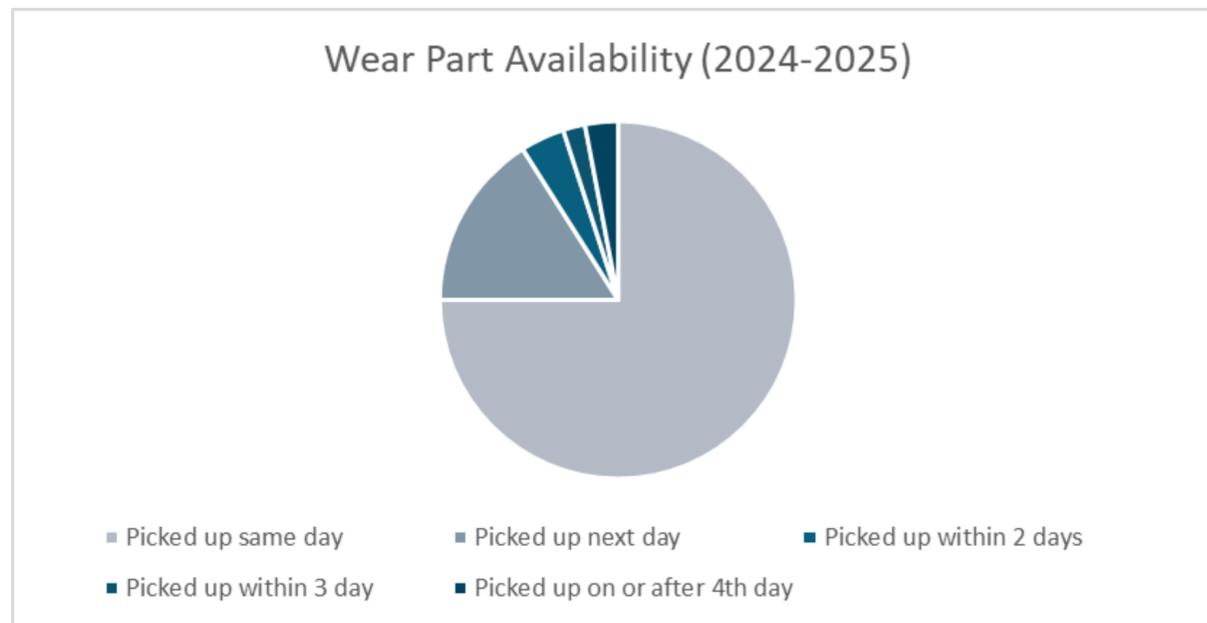

Note: This is the service performance of our team for the financial year 2024-25

Streamlined inventory, timely access

Ensuring parts are always available when you need them

Our warehouse system is designed to ensure efficient management and availability of essential parts. With real-time tracking and organized inventory, we maintain optimal stock levels to meet operational demands.

The system allows seamless monitoring of ware parts availability, minimizing delays and ensuring quick access to critical components. This ensures smooth operations and timely deliveries, providing customers with reliable and efficient service.

Note: Showcasing the wear parts availability and the timely access chart of our team for the financial year 2024-25
